ARTHRITIS BODY CONDITIONING–Activities and exercises to improve balance, posture, muscular strength, endurance and flexibility, manage pain and help with symptoms of Arthritis and Parkinson's.

Purchasing Water Equipment

Noodles: Be sure to purchase **ADULT** size noodles. Hold the noodle beside your body while standing straight up; it should touch the floor and come all the way up to your shoulder, or higher. Pinch A Penny in Sun City Center, off 674, in the plaza with Dollar Tree and Save A Lot usually carries adult size noodles year-round. If they are out of adult size noodles, speak to an associate who can order them from a sister store and have them back in stock within days. Wal-Mart may also be an option to purchase your noodle but be sure to check the size. Some classes at KPSC require one noodle and some classes require 2 noodles so check the schedule to see how many you'll need for the class you'd like to attend.

Water Weights: Water weights can be purchased through a local Sun City resident named Herman Ski. These water weights were specifically designed for water classes. If you are interested in purchasing a set of water weights from Herman contact him at 813-812-6918. The weights are \$15 per set. Another option for water weights is to cut a noodle into pieces that are the size you'd like them to be. The longer the piece of noodle the greater the resistance and the shorter the noodle the less resistance it will provide in the water.

Water Shoes: Local retailers like Bealls and Wal-Mart usually carry water shoes year round. Online sites like www.kiefer.com and ww.speedousa.com also sell water shoes.
