LET'S CELEBRATE OUR SUCCESS…..

There is an old saying: "Stop and take time to smell the roses." As a busy community, we don't always realize the various enhancements to our beautiful lifestyle and investment. In fact, we often take them for granted.
SO LET'S BRAG!!

At the North Clubhouse: There are so many bragging points the following highlights a few: reconstructed foot bridges to the parking lot using skid resistant materials; new signage, a face lift and better navigation around the area; replaced landscaping, retiring the old, tired plants and shrubs as well as some of the tired, huge old trees meeting esthetic and safety issues. Strolling the halls will lead you to the Billiards Room, always popular and the Waterside Room, providing welcoming atmosphere whether it s a party or a "proper" meeting. Don't forget the pool side gazebo that was completely redone, addressing the needs for more space and fun.

At the South Clubhouse: The newly refurbished Palm Court patio has a beautiful new canopy and furniture with comfortable seating outside to enjoy lunch or dinner. You sit among beautiful surroundings, including a fountain, that makes it a perfect recipe for relaxing. The *Residents Only* days at the pool for residents to enjoy a holiday activity without over crowding are well received.

At the Cyber Café at Falcon Watch: The "Cyber" in Cyber Café brings all the computers and services to one location. The "Café adds a venue for light breakfast and lunch, all in the middle of our community, creating a cozy gathering place for all.

These are only a few observations of our great enhancements, makes you proud doesn't it????

KINGS POINT IS APPROACHING ITS 45TH BIRTHDAY.

Quite a trip! Our community and its culture was built upon a solid foundation with care and support from its residents. As time moved on, the population grew, tastes, preferences and needs changed. A strong effort in Kings Point is the need to continue to move forward. This requires actions to modify, change, hone and enhance; tear down should never be an option.

As an example, let's look at the 2020 Centre. When the option came to "do something" with the structure, as per their job, the sitting Board conducted a great deal of research. Renovate, raze, what? That research determined the "bones", the foundation, were strong and could be built on. Keeping the "bones" in place enabled maintaining the foot-print, the square footage. Both very important. The community survey in 2012 gave direction to modify, change, hone and enhance the space within the strong foundation.

Continuing in that same vein, the community indicated that a new direction for landscape services is needed. After listening and researching, the sitting Board established the nine (9) member Landscape Contract Committee, consisting of representation from each of the nine (9) Federation Districts, to identify landscape companies that can provide the services and quality the community desires. The Committee charge is posted on the bulletin boards in both clubhouses and on KPSCC.com, Federation link-Federation Minutes and Attachments, for all to access.

> *"The problem is that today only those with the loudest voices are heard. The rules are skewed to advantage the extremes and freeze out those in the middle who would bring much-needed sense of moderation."* US Congressman and author, Jason Altmir

Gives one pause to reflect……

Wishing all a Happy Thanksgiving and a Merry Christmas,
a Holiday Season to celebrate with family and friends

Master Association Update...

MASTER ASSOCIATION 2017 ANNUAL MEETING AND ELECTION

Wednesday, November 15, 2017 at 10:00AM
Kings Point North Clubhouse
Veterans Theater

ELECTION

There are two positions on the Master Board of Directors up for election to a three-year term. Only Association Presidents, or their designated director, vote for directors of the Master Association. Each Association has one vote for each open director position. Additional information is available at www.kpscc.com under the Master Association tab.

The Master provides supervision, management and care & maintenance of Kings Point infrastructure such as roads, traffic control, landscaping within the roadway areas, drainage systems, and irrigation infrastructure (wells, pumps, pipes, and other irrigation equipment) located throughout the Kings Point community, as well as all other matters determined to be in the best interest of Kings Point in accordance with the Master Association's Articles and Bylaws.

Residents are encouraged to attend the Master Annual Meeting to learn about the infrastructure challenges facing Kings Point and the plans to address these community needs.

IRRIGATION RESPONSIBILITY

The Master Board will make a presentation to the Membership at the Membership Meeting regarding Master Association and Condominium/HOA Irrigation Responsibilities, and how these responsibilities might be administered going forward, based on a vote of the Members present and voting at the meeting.

IRRIGATION UPDATE

The community's irrigation upgrade project continues with the ongoing installation of the Baseline System by Irrigation Technical Services (ITS). The most noticeable work has been along the median of Kings Blvd., as ITS continues to work on the medians, replacing and adjusting sprayers to direct the water onto the turf and avoid overspray onto the roadways, including the installation of new micro-heads that will more accurately direct the water onto the medians.

The major work on Kings Blvd. in the Riverside Park area beside the Knolls is the installation of a new well to provide the water for the Upper Loop. Another new well is being installed in the Highgate area to replace a 50+ year-old well that is no longer functioning properly.

PLEASE WATCH OUT FOR WORK VEHICLES AND PERSONNEL WHO MAY BE IN THE ROADWAYS. SLOW DOWN AND OBEY THE SAFETY CONES.

Information about the Master Association is available at
www.kpscc.com—click on Master Association.

Safe Golf Cart Driving in Kings Point

Donn Aikins,
Chief of Security

While it's not possible to cover all of the rules that apply to the safe operation of golf carts in Kings Point, I would like to highlight just a few.

If you own a golf cart, you may pick up a free "Golf Cart Drivers Handbook" from the transportation office located in the North Clubhouse. Golf cart drivers are required to adhere to all basic traffic laws such as stop signs, no passing except where indicated, speed limits, and yielding to pedestrians and bicycles.

Golf carts can only be operated by drivers 14 years of age and older. Golf carts operating at night must have headlights and cannot go outside of Kings Point before sunrise or after sunset.

Please note that in Sun City Center, the crossing of State Road 674 is permitted only at the following three locations:

- Kings Boulevard/Valley Forge Drive
- Trinity Lakes Drive/ Sun City Center Plaza
- Pebble Beach Boulevard

Golf Carts are <u>not</u>, under any circumstances, permitted to make a right or left turn on to SR 674. They may, however travel on the designated golf cart section which runs along the south side of 674, and along the north side of SR 674 from South Bay Hospital to the Cypress Village Shopping Center parking lot.

<u>This month's "Chat with the Chief" Question:</u>

Q. My name is Vie, I live in the Knolls, I was wondering about the overnight parking. Can someone reside in the RV while it is parked in the overnight parking area?

A. This is a strong "NO." The overnight parking is for the parking of vehicles only. Due to safety and other liability concerns, it is not permissible to live out of a RV when it's parked in the overnight parking area.

Remember to send your questions to DAikins@VestaPropertyServices.com.
